

Labelling on the Tube / Bottle/ Foil Sachet (Water-based Lubricants)

myONE® logo
Plain Lubricating Jelly (volume or weight)

DOES NOT CONTAIN SPERMICIDE. NOT A CONTRACEPTIVE.

myONE® is non-sterile, non-irritating, greaseless and water-soluble medical device to be used by lay persons - adult male or female. It is used as additional lubricant during intercourse for alleviation of vaginal dryness. It helps to reduce friction associated with thin and/or dry genital tissue, during sexual intercourse.

It is safe to use with natural rubber latex and polyisoprene condoms. Suitable and may be used for body massage.

- Avoid contact with eyes and ears. Store in a cool, dry place away from direct sunlight.
- If irritation or discomfort occurs, discontinue use immediately. If irritation continues or lubricant is required all the time, consult your doctor.
- Do not use if package is torn or broken.
- Use within 6 months after opening (*for tube or bottle packaging*)
- Lubricant is a single use device
- Dispose empty packaging hygienically in a closed rubbish bin.
- Report any serious incident occurred from using the device to the manufacturer and the relevant national competent authority.
- Read the instructions and ingredients listed on the packaging carefully before use.

Pump required amount of lubricant jelly onto your fingers and apply directly onto condoms, skin or any required areas.

Ingredients: *Ingredient list shall be written according to lubricant variant formulation – Refer to ingredient master list*
